SPECIAL NOTES

***DMPs** **Dock Master Plans** - OCRM is reviewing the listed DMPs for planning purposes only. Permitting decisions will occur when future dock applications are processed by OCRM for individual property owners. This document is used as a planning tool it is not subject to the appeal. OCRM welcomes comments from the public on these planning documents.

****WMPs** **Wetland Master Plans** - OCRM is reviewing the listed WMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM, which include impacts to freshwater wetlands. This document is used as a planning tool; it is not subject to appeal. OCRM welcomes comments from the public on these planning documents.

*****SWMPs** **Stormwater Master Plans** - OCRM is reviewing the listed SWMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM. OCRM welcomes comments from the public on these planning documents.

******PERs** **Preliminary Engineering Reports** - OCRM is reviewing the lists PERs for the purpose of commenting to other sections of DHEC concerning this document. OCRM will not be issuing a coastal zone consistency certification at this time but providing comments. If this proposal moves forward to the permitting process, OCRM would at that time do a full coastal zone consistency review.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

January 27, 2006

Permit Number: OCRM-06-016-M
Permit ID: 54031

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Mark & Tracie Ezekiel
C/O Robert M. Lafitte
3022 Millwood Avenue
Columbia, SC 29205

LOCATION: On and adjacent to Big Bay Creek at 3750 Docksite Road, Edisto Beach, Colleton County, South Carolina.
TMS#: 354-04-00-038.

WORK: The work as proposed and shown on the attached plans consists of modifying and making additions to an existing dock. Specifically, the applicant proposes to raise the elevation of the existing 5' by 43' walkway 3' above the mean high water mark and install a new 12' by 12' covered fixed pierhead at the end. The existing access ramp and 10' by 39' floating dock will be relocated channelward of the pierhead. The applicant also proposes to install a 12' by 12' four-pile boatlift landward of the relocated floating dock. The purpose of the activity is for the applicant's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

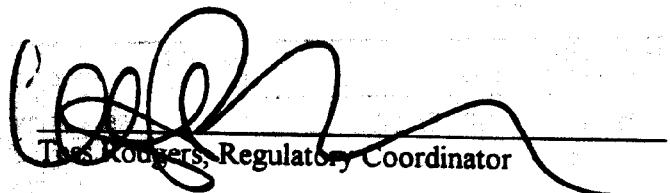

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before February 11, 2006. For further information please contact the project manager for this activity, Fred Mallett at 843-747-4323 ext. 119.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

January 27, 2006

Permit Number: OCRM-06-020-R
Permit ID: 54070

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Joan Fletcher
C/O Dock Doc's
2750 John Boone Ct
Mount Pleasant, SC 29466

LOCATION: On and adjacent to Hobcaw Creek at 1158 Manor Lane, Wakendaw Manor, Mount Pleasant, Charleston County, South Carolina.
TMS#: 559-01-00-015.

WORK: The work as proposed and shown on the attached drawings consists of rebuilding a dock. The applicant seeks to remove the existing dock and replace it with a 4' x 55' walkway leading to an 8' x 10' pierhead. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

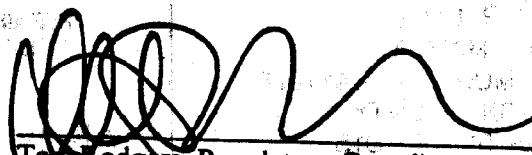

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before February 11, 2006. For further information please contact the project manager for this activity, Tess Rodgers at 843-747-4323 ext. 116.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

January 27, 2006

Permit Number: OCRM-06-021-L
Permit ID: 54071

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: John U. Downs, Jr.
C/O American Dock & Marine
1533 Folly Rd., D-5
Charleston, SC 29412

LOCATION: On and adjacent to Parrot Creek at 895 Parrot Creek Way, James Island, Charleston County, South Carolina.
TMS#: 454-11-00-044.

WORK: The work as proposed and shown on the attached plans consists of adding a single-pile boatlift to the ebbside of an existing fixed pierhead. The boatlift is for the applicant's private recreational use. In addition, the applicant proposes to construct a 7' x 95' revetment at a 2:1 slope covered with granite riprap channelward of the critical area line. The purpose of the revetment is for erosion control.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

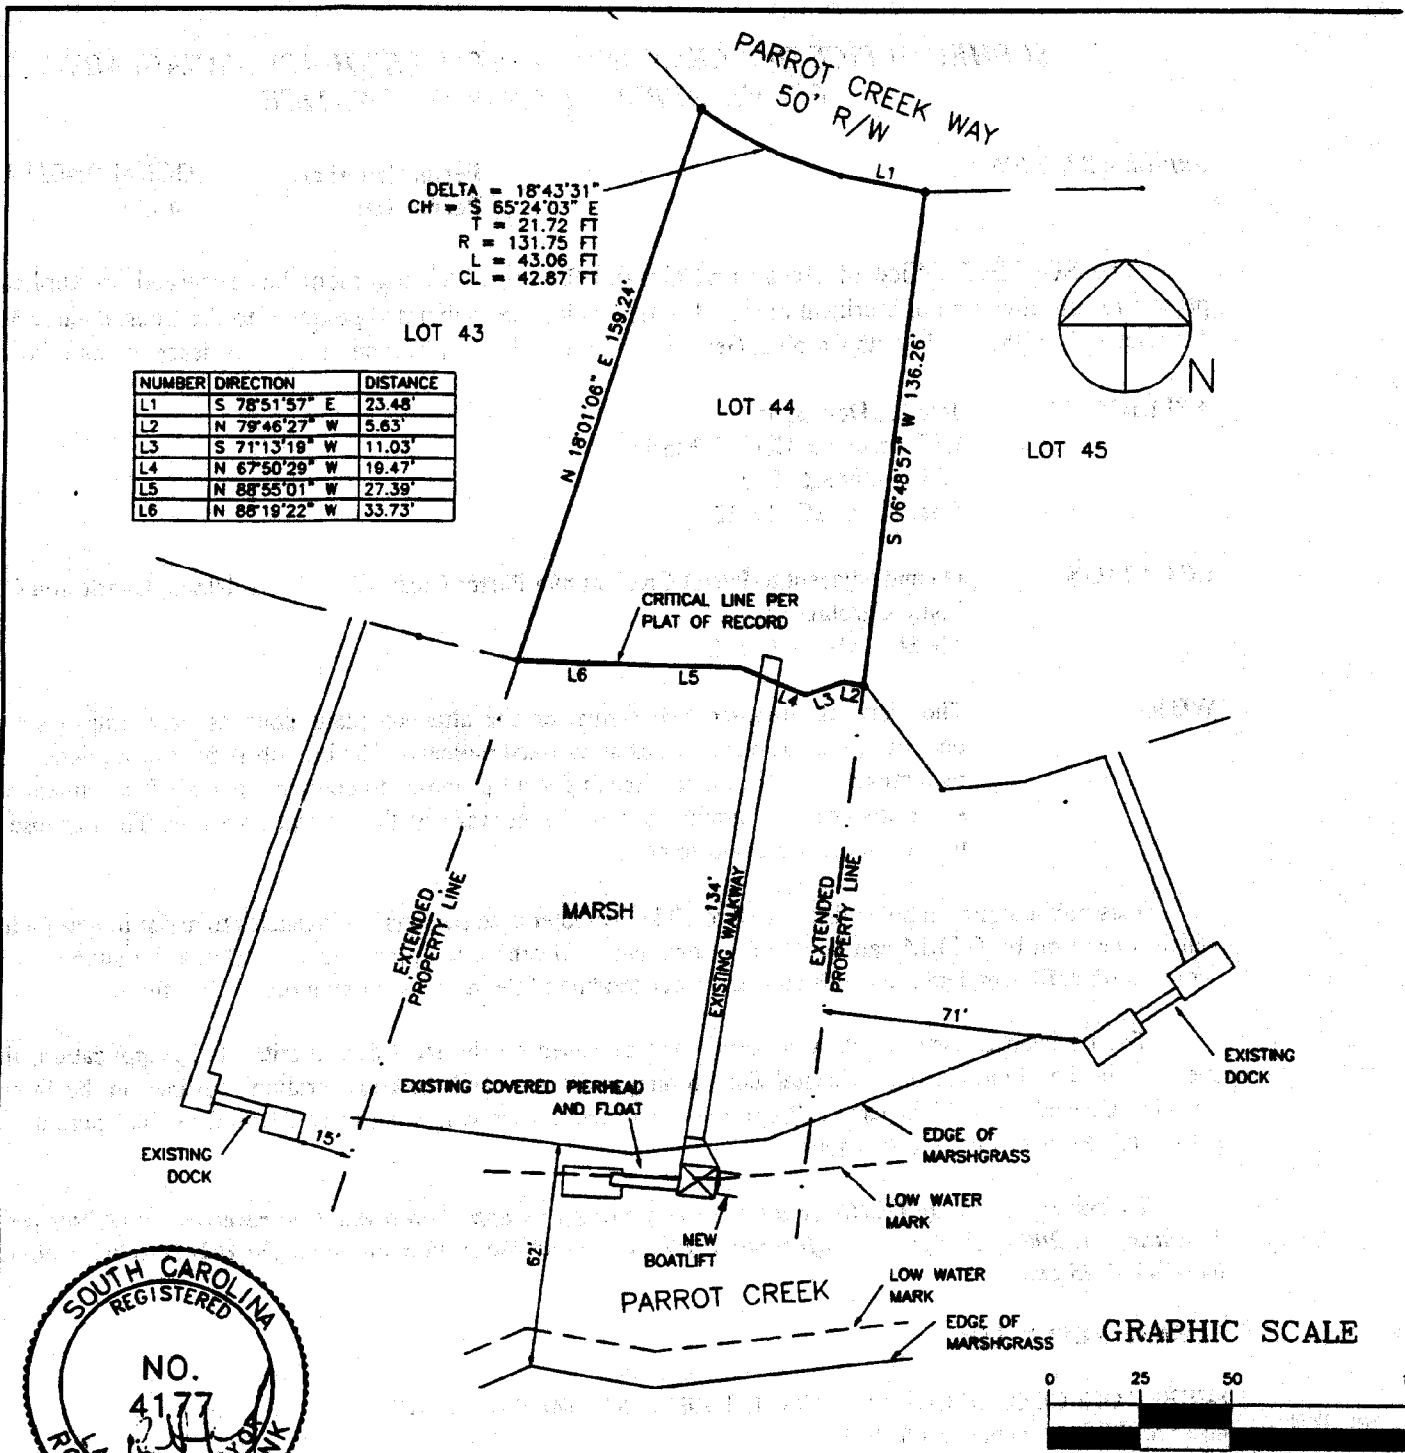

To assure review by OCRM, comments regarding this application must be received by OCRM on or before February 11, 2006. For further information please contact the project manager for this activity, Melissa Rada at 843-747-4323 ext. 122.

BUREAU OF LAND MANAGEMENT

OFFICE OF THE ASSISTANT ATTORNEY GENERAL

WASHINGTON, D. C.

DECEMBER 1, 1944

MEMORANDUM

TO :

FROM :

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

January 27, 2006

Permit Number: OCRM-06-810
Permit ID: 54009

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Huffman & Weber
C/o Steadfast Marine Services Inc
P O Box 219
St Helena Island SC 29920

LOCATION: On and adjacent to Broad Creek at 57 River Club Dr, Hilton Head Island, Beaufort County, South Carolina.
TMS#: RR510-011-00D-0007-0000.

WORK: The work as proposed consists of constructing a private dock. The proposed structure will have a 4'x395' walkway with handrails leading to 16'x16' covered fixed pierhead. Channelward of the pierhead will be a 4'x30' ramp leading to a 10'x30' floating dock. To the right of the float will be a 12'x12', 4 pile boatlift. The purpose for the dock is for the property owner's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before February 11, 2006.

This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Steve Adams
C/o Carolina Coast Marine Construction Inc
572 Sea Island Pkwy
Saint Helena Island SC 29920

LOCATION: On and adjacent to Fripp Canal at 457 Tarpon Blvd, Fripp Island, Beaufort County, South Carolina.
TMS#: R400-039-000-0046-0000.

WORK: The work as proposed consists of constructing timber bulkhead. The proposed structure will be 5' high by 70.24' long with 5' wing walls and placed along an eroding shoreline. The purpose for the bulkhead is for erosion control.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before February 11, 2006.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

January 27, 2006

Permit Number: OCRM-06-820
Permit ID: 54064

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Kimberly J Carroll
C/o Steadfast Marine Services Inc
P O Box 219
St Helena Island SC 29920

LOCATION: On and adjacent to Chowan Creek at 14 South Point Trail, Ladys Island, Beaufort County, South Carolina.
TMS#: R200-021-00A-0116-0000.

WORK: The work as proposed consists of constructing a private dock. The proposed structure will have a 4'x290' walkway with handrails leading to 15'x16' covered fixed pierhead. Channelward of the pierhead will be a 4'x30' ramp leading to a 12'x30' floating dock. To the left of the floating dock will be a 12'x12', 4 pile boatlift. The purpose for the dock is for the property owner's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

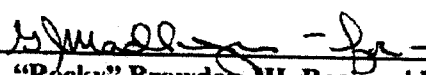

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before February 11, 2006.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

January 27, 2006

Permit Number: OCRM-06-821
Permit ID: 54066

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Richard S Andert
C/o Steadfast Marine Services Inc
P O Box 219
St Helena Island SC 29920

LOCATION: On and adjacent to Chowan Creek at 11 North Point Trail, Ladys Island, Beaufort County, South Carolina.
TMS#: R200-021-00A-0115-0000.

WORK: The work as proposed consists of constructing a private dock. The proposed structure will have a 4'x350' walkway with handrails leading to 15'x16' covered fixed pierhead. Channelward of the pierhead will be a 4'x30' ramp leading to a 12'x30' floating dock. Also, 14' off each end of the float will be a mooring pile. To the left of the floating dock will be a 12'x12', 4 pile boatlift. The purpose for the dock is for the property owner's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

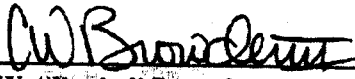

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

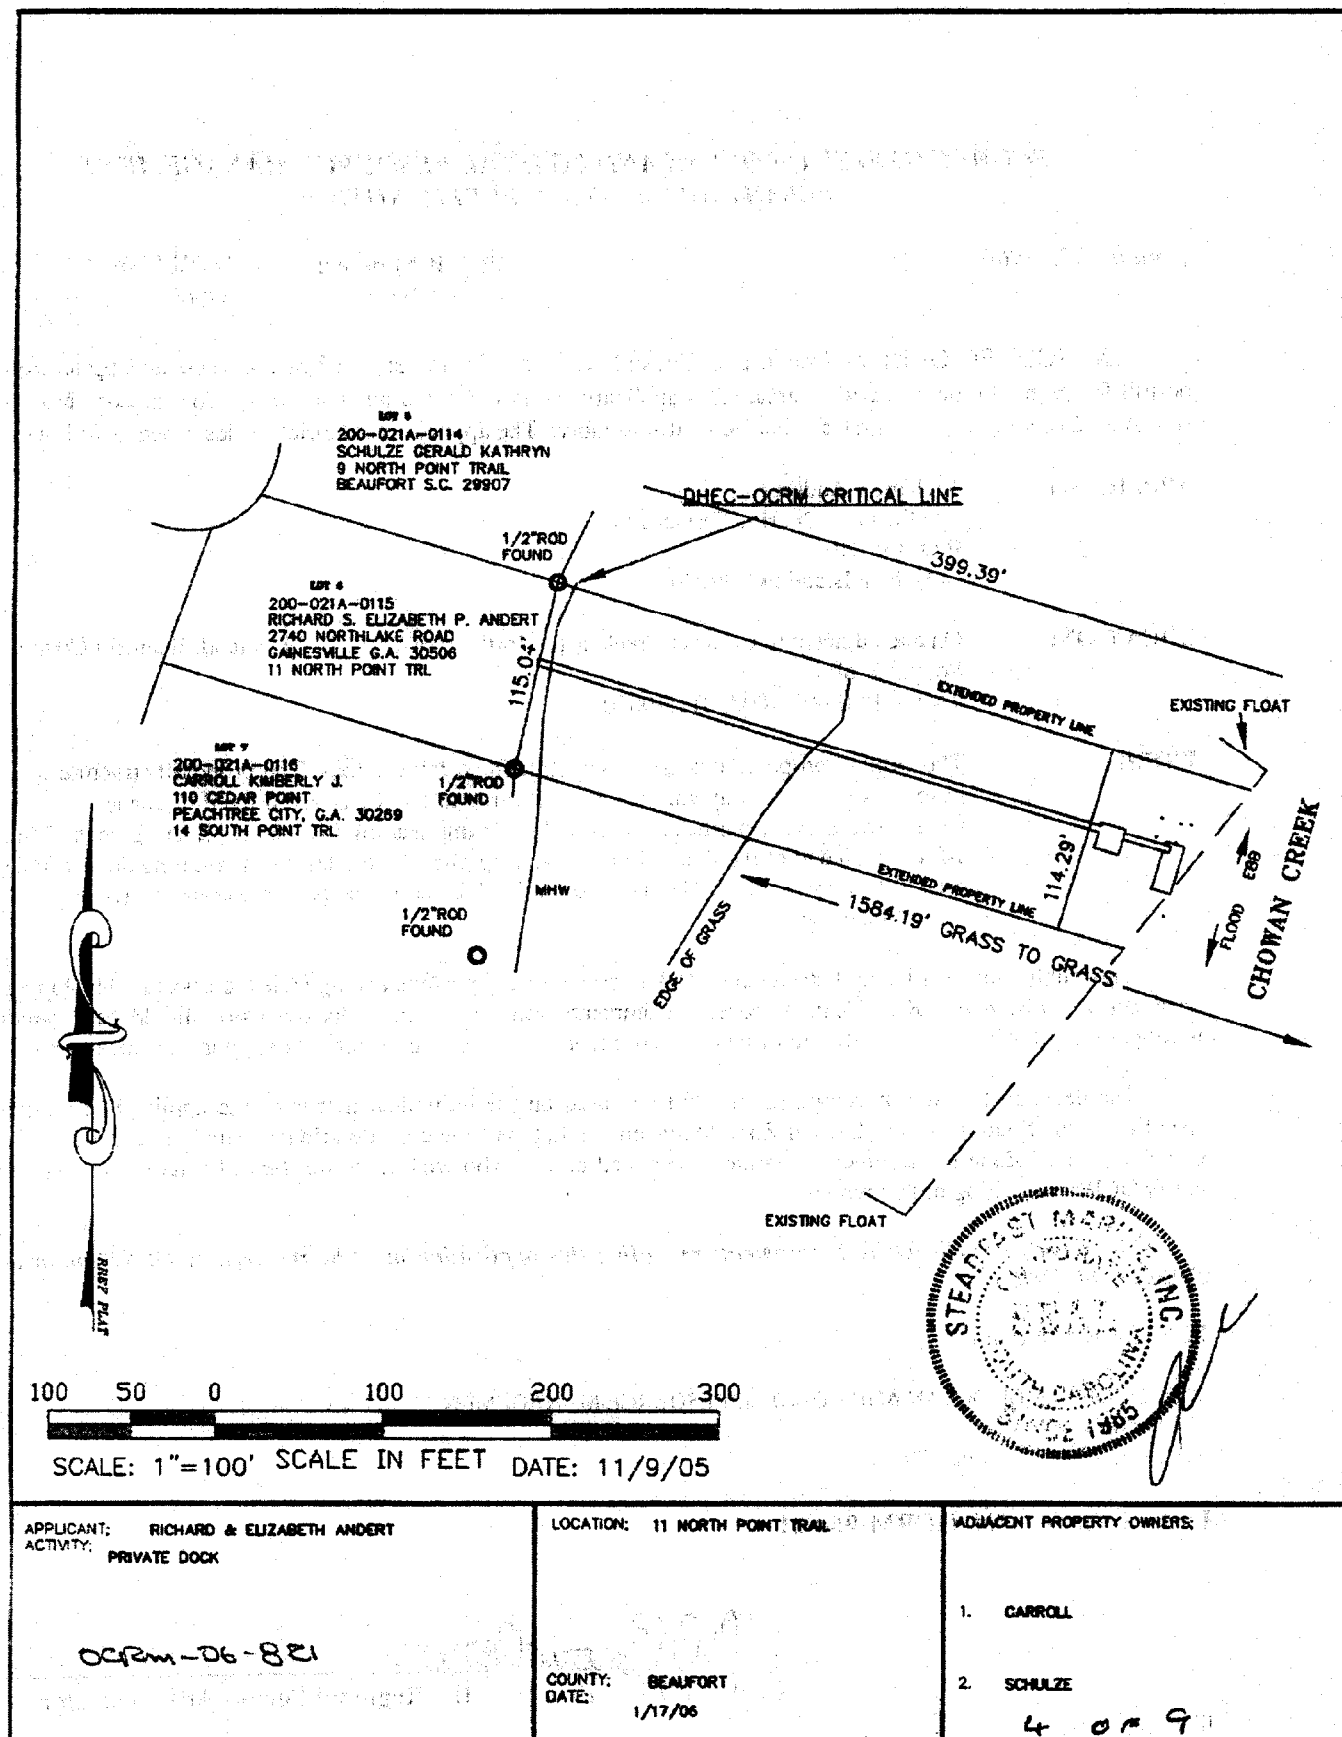

To assure review by OCRM, comments regarding this application must be received by OCRM on or before February 11, 2006.

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT:

Stephen L Parker
C/o Atlantic Marine Construction Co Inc
372 County Shed Rd
Beaufort SC 29906

LOCATION:

On and adjacent to Calibogue Sound at 1 North Calibogue Cay, Sea Pines Plantation, Hilton Head Island, Beaufort County, South Carolina.
TMS#: R550-013-000-0001-0000.

WORK:

The work as proposed consists of making additions to an existing private dock. The applicant proposes to add a 10' x 34' floating dock to the end of an existing 10' x 20' float and replace the ramp with a new 4' x 30' ramp. Landward of the new float a 16' x 16.5', four-pile boatlift is proposed. The purpose for the dock additions is for the property owner's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Pursuant to Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403), and the South Carolina Coastal Zone Management Act (48-39-10 et seq.), an application has been submitted to the Department of the Army and the South Carolina Department of Health and Environmental Control by

MR. AND MRS. ANDREW COLEMAN
1501 RICE MARSH COURT
MT. PLEASANT, SOUTH CAROLINA 29466

for a permit to construct a pier, floating dock, and boat lift in the

ATLANTIC INTRACOASTAL WATERWAY (AIWW)

at 7257

(Latitude - 32.9797; Longitude - 79.6241)

Awendaw, Charleston County, South Carolina.

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, 6 FEBRUARY 2006

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of constructing a timber pier with a 20' x 20' covered fixed pierhead attached to highland by a 4' x 205' walkway. A 10' x 30' floating dock is to be located in front of the fixed pierhead and attached to the fixed pierhead by a ramp. A 12' x 12' covered boat lift is to be installed on the downstream side of the fixed pierhead. It is understood that this work will be conducted on/or adjacent to an area subject to a prism and/or disposal easement held by the United States in perpetuity in conjunction with a Congressionally authorized project for the maintenance and improvement of the Atlantic Intracoastal Waterway. Should a permit be issued, appropriate provisions will be included to ensure the interests of the Federal Government are understood. The purpose of this work is for the applicants' private recreational use.

NOTE: Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

The work shown on this application must also be certified as consistent with applicable provisions of the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certification is received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review. Persons wishing to comment or object to State certification must submit all comments in writing to the South Carolina Department of Health and Environmental Control at the above address within thirty (30) days of the date of this notice.

This initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended).

The District Engineer has consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. Consultation of the National Register constitutes the extent of cultural resource investigations by the District Engineer, and he is otherwise unaware of the presence of such resources. Presently unknown archaeological, scientific, prehistorical, or historical data may be lost or destroyed by the work to be accomplished under the requested permit.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary

to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact me at 843-329-8044 or toll free at 1-866-329-8187.

27 JANUARY 2006

Pursuant to Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 408), Sections 401 and 404 of the Clean Water Act (33 U.S.C. 1344), and the South Carolina Coastal Zone Management Act (48-39-10 et seq.) an application has been submitted to the Department of the Army and the S.C. Department of Health and Environmental Control by

MR. WAYNE MAGWOOD
C/O GENERAL ENGINEERING AND ENVIRONMENTAL, LLC
2040 SAVAGE ROAD
CHARLESTON, SOUTH CAROLINA 29407

for a permit to install a boat ramp, fixed pier and floating dock for a proposed dry stack marina in
SHEM CREEK

at a location 110 Haddrell Street, Mount Pleasant, South Carolina (Latitude 32.78949°- Longitude 79.88525°)

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, FEBRUARY 27, 2006

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of removal of 965 square feet of existing dock and replacing it with a 12' x 42' fixed concrete pier, and an 18' x 20' floating dock attached to high ground by a 4' x 12' ramp. The purpose of the work is to construct the facilities for commercial use for the proposed Maywood dry stack marina.

NOTE: Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

Charleston, South Carolina 29403-5107**

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would not impact estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. Consultation of the National Register constitutes the extent of cultural resource investigations by the District Engineer, and he is otherwise unaware of the presence of such resources. Presently unknown archaeological, scientific, prehistorical, or historical data may be lost or destroyed by the work to be accomplished under the requested permit.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

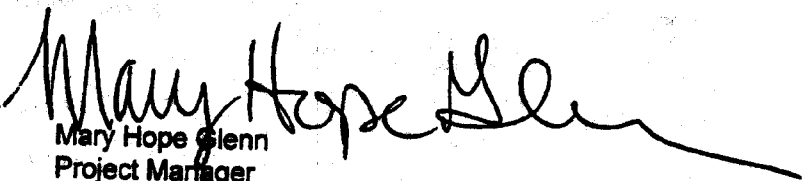

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

27 JANUARY 2006

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact me at 843-329-8044 or toll free at 1-866-329-8187.

Refer to: P/N #2006-1E-003-P

27 January 2006

Pursuant to Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403), Section 401 of the Clean Water Act (33 U.S.C. 1344), and the South Carolina Coastal Zone Management Act (48-39-10 et seq.), an application has been submitted to the Department of the Army and the S.C. Department of Health and Environmental Control by

MIKE HOGAN

1359 21ST AVENUE NORTH

MYRTLE BEACH, SOUTH CAROLINA 29577

for a permit to construct a community dock structure in

CLUBHOUSE CREEK

at the proposed Enclave at Pawleys Island, Martin Luther King Road and U.S. Hwy. 17N, Pawleys Island, Georgetown County, South Carolina. (Latitude - 33.45485; Longitude - 79.11210)

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, 13 FEBRUARY 2006

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of constructing a timber pier with a 4' x 35' fixed walkway attached to an upland 4' raised wooden walkway. An 8' x 12' gazebo will be installed at the end of the fixed walkway. An 8' x 12' floating dock is to be installed on the downstream side of the gazebo and attached to the gazebo by a 4' x 22' adjusting ramp. The purpose of this work is for the private recreational use of the future residents of the Enclave at Pawleys Island.

NOTE: Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended).

The District Engineer has consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. Consultation of the National Register constitutes the extent of cultural resource investigations by the District Engineer, and he is otherwise unaware of the presence of such resources. Presently unknown archaeological, scientific, prehistorical, or historical data may be lost or destroyed by the work to be accomplished under the requested permit.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

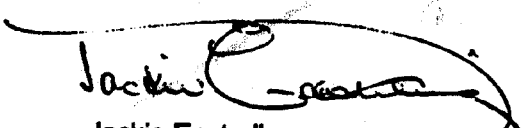

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably

27 January 2006

foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

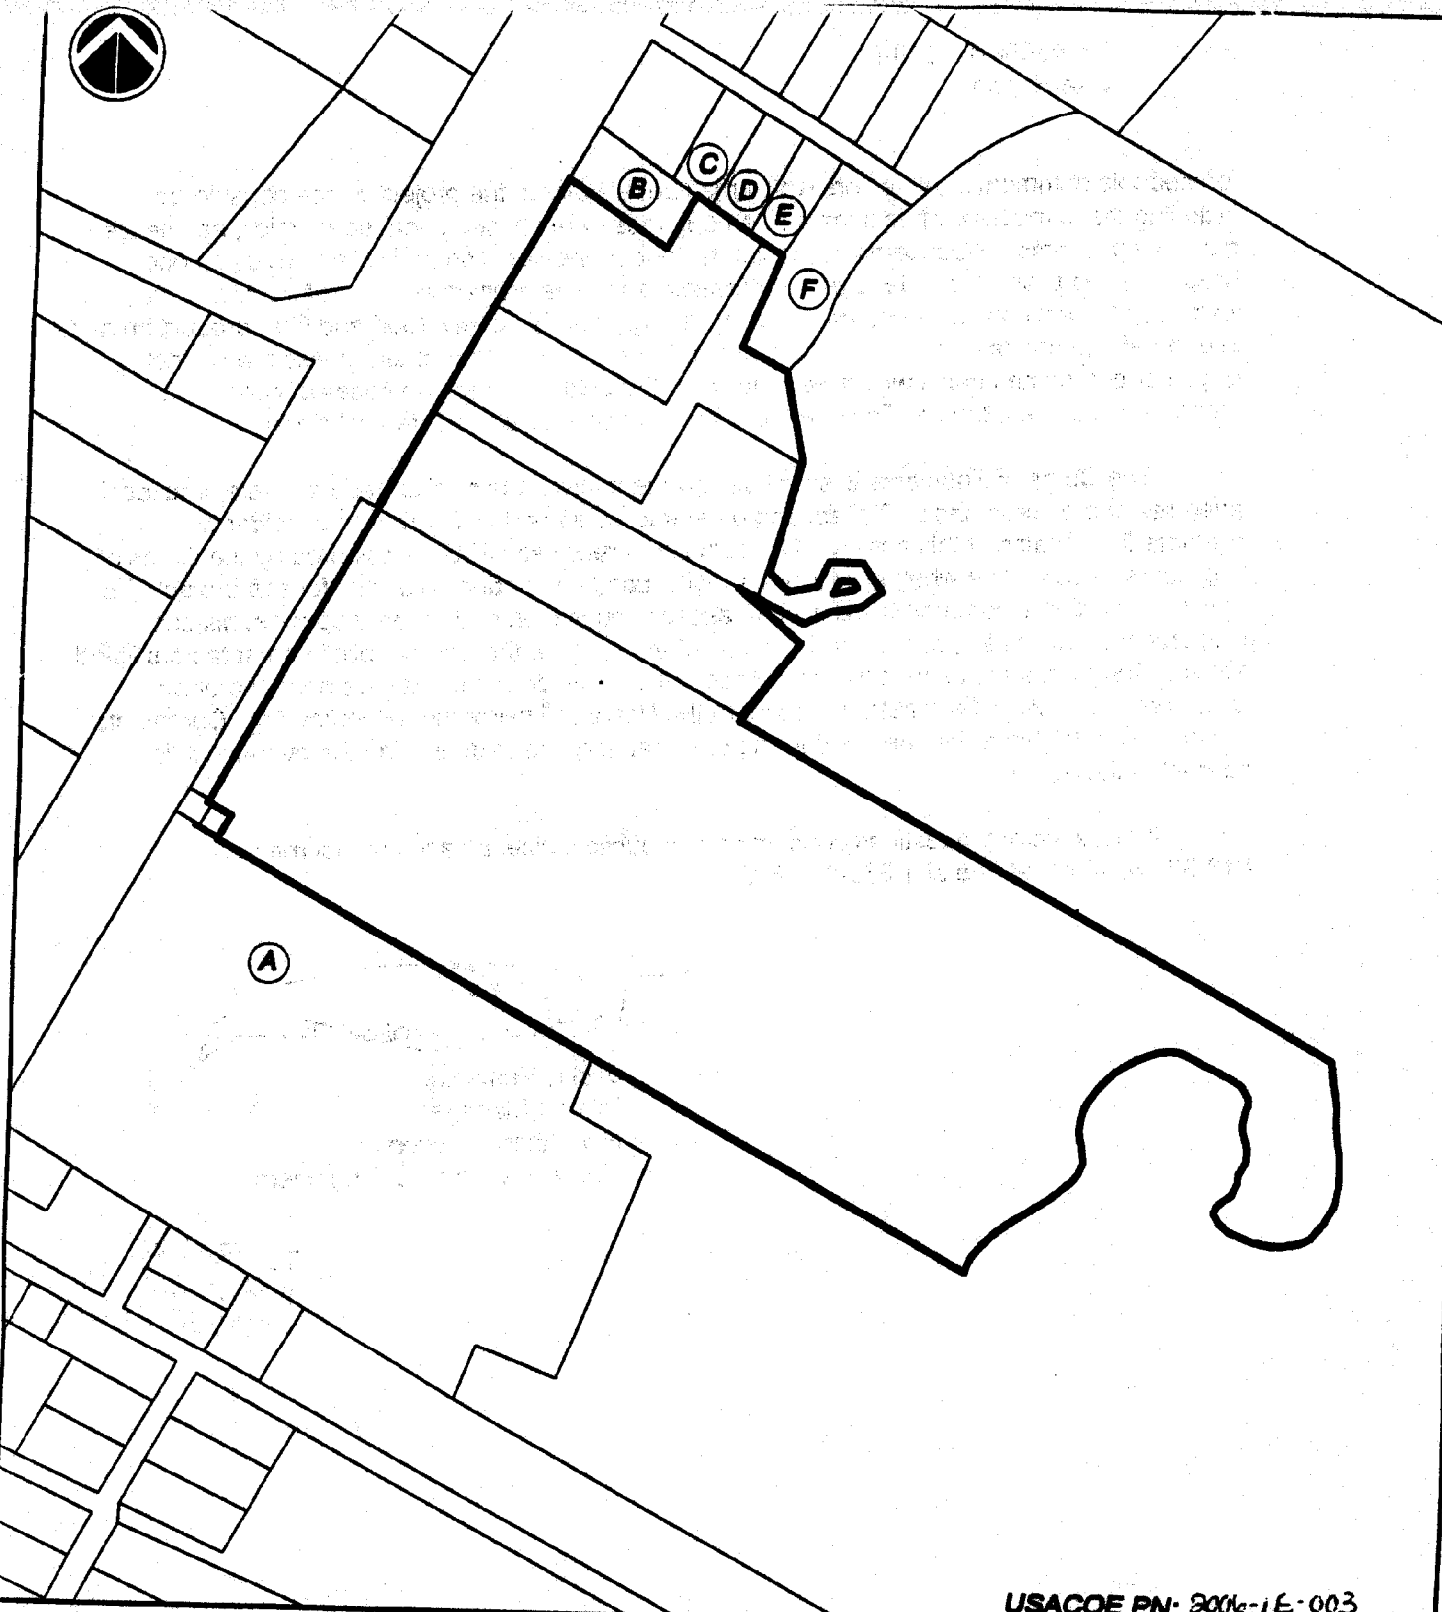

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact me at 843-329-8044 or toll free at 1-866-329-8187.
